

# ULTI

## The Art of Impression

With its ultra-clean lines, sleekly chic square profile and instantly identifiable round dolly, ULTI blends two contrasting geometries to create modern simplicity of unprecedented freshness.

The design overcomes the clutter of a large central mechanism or the redundant lines of a surround frame. It results in maximum scope to showcase the synergy of color, material and finish in a standard-sized wall plate. Adding the final touch, ring-shaped LED locators glow pleasingly to guide you to your switches at night.

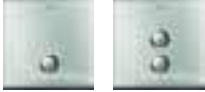

### Features & Benefits

- Award winning design
- Clear square profile for a modern & chic appearance
- Instantly identifiable round dolly
- LED locators available in blue & amber
- Hotel & Home Automation solutions available in the same finishes
- Powered by the i.m.press (iso-motion-press mechanism)
- Ensures the switch dolly remains in the same position whenever it's ON or OFF
- Occupies a much shorter travel distance
- Frees the design paradigm of switch

### Finishes

- Crystal Glass
- Champagne Gold
- Brushed Silver
- Pearl White

iso-motion-press mechanism

ULTI's unique iso-motion-press (i.m.press) mechanism ensures switches stay in a uniform position and can be swiftly and surely operated with a simple motion. With dollies maintaining the same position whether on or off and, i.m.press empowers the world's first ever fully flush-faced 250V-rated mechanical switch.
