

Smart Switch Module

If you are looking for an easy way to replace your traditional controls with a much more modern and effortless solution for home management, the very new Smart WI-FI Relay Switch Module is the perfect investment you should make. This latest art of technology, gives you the autonomy to the operation of your water motor, switches, sockets, and bulbs just a single click or voice using Amazon Alexa or Google Home on your smart phone. You can now even switch various sockets On/Off automatically with your phone, instead of physically walking to them every now and then.
